4. Reorganization of LAS Library Sub-units.

The proposal made by C/LIB/ISB in his memo of 7 June 1956 "Recommendations for Reorganization of the OTR Library Services" was to centralize all LAS books in the central OTR Library in R&S Building. C/LAS C/LIB/ISB, have discussed this matter in detail. C/LAS suggests extensive modification on the basis that students will not go to R&S for reading materials. Consequently, he recommends that the sub-units be retained; that instructors retain 2 copies of each text used and all reference works; that all multiple copies of a text ordered for course use be retained in R&S storage until used for a course, when the students will come to R&S to borrow them for the extent of the course; that the sub-units weed out their collections every six months returning materials to R&S library; that only 5 instead of 9 sections of the stacks currently on order for Quarters Eye be sent there and erected; that important journals (Far East Quarterly, etc.) be routed to the instructor concerned for his use for one month, rather than build back files. These recommendations are constructive modifications to the original proposal; it was felt that the scattered collections ~~sh~~ould be entirely centralized in R&S Building, overcoming a duplication in work loads and the purchase of books.
